Administrative fee can be paid by the Slovak payment system eKolak:

*Employee of the Ministry of the Environment of the Slovak Republic responsible for your notification will send you the **Payment Instruction**.*

*We would like to ask you to pay attention to the **E2E (End-to-end) reference** as there often occur problems with this “E2E number” (if it is not correct our bank has to return the payment back). Please add the E2E number as the Payment Reference during the bank transfer.*

*Your bank transfer payment **MUST** always have the correct alpha-numeric Payment Reference – E2E (End-to-end) reference.*

The Payment Reference is a message to the payee (beneficiary) about your payment.

Do not insert any comments or words with your reference. Our system only needs the alpha-numeric reference to recognize your payment.

(Some banks allow two references, one for your statement and one for the payee. If you are not sure which field is for the payee, please enter our E2E reference in both fields.)
